CYBER WELLNESS EFFORTS

Be Internet Awesome.

Being Internet Awesome means being smart, alert, strong, kind, and brave. To demonstrate these qualities, all members of our family promise to stick to the following commitments:

Share with Care
We will thoughtfully consider what we share and with whom—what impact it could have on ourselves and others—and keep extra sensitive information to ourselves (i.e., home address, current location, other people's business).

Don't Fall for Fake
We will watch out for phishing and scams and report questionable activity to each other every time.

Secure Your Secrets
We will take responsibility for protecting important information by crafting strong and unique passwords with characters, numbers, and symbols.

It's Cool to Be Kind
We will spread positivity and respect, and we will block and report hurtful online behavior. If we see others being harmed online, we will be upstanders, not bystanders.

When in Doubt, Talk It Out
We will stand up for ourselves and others when we notice hurtful or inappropriate behavior online. We will discuss situations that make us uncomfortable with each other as a family.

Because that's what it takes to be safe and confident explorers of the online world.

Signed,

At West Grove Primary, the use of technology is age-appropriate and balanced with other forms of learning experiences. In-school use of learning devices is light at the lower primary levels and will be progressively increased from Primary 3 onwards, under supervision.

Looking forward to
partnering you
to raise our children as
Self-directed learners,
empowered by technology
